

Website Option 3

Header Images

Choose one, two, or three header images. Make sure they are of high quality, landscape orientation (i.e. width bigger than height, ideally somewhere between 1.4 and 1.6 ratio width vs. height). This is what grabs your visitors attention, so be choosy.

Header Texts

If you want text on top of your Header Images, enter it here. If you choose to use less than three Header Images, use (n/a) in the fields you are not using. Make these short and succinct and, ideally, tied to the corresponding Header Image.

About

Enter your content for the About section here. Precede each column with "Column #" to identify the beginning of each column, such as:

Column 1: Text for column 1

Column 2: Text for column 2

Column 3: Text for column 3

Of course, the "Column #" identifiers will not be part of the content on the site.

Product or Services

Depending on whether you sell products or services, or even if you wish to skip this section, choose the selections to use. You can use up to four columns. Precede each one with "Column #" like described above, followed by the header for the column and one or two paragraphs describing the service or product.

Contact

This section consists of three columns of 25%, 50%, and 25% width, respectively. We will place a simple contact form in the center column (Name, Email, and Message), and typically a postal address and phone number in the left column and customer service information such as email address, and/or phone number (with extension?) in the right column. If you want different information than that, just tell us and give us the heading you want to use for each column.

Footer

We will place a copyright message, design & hosting information on the left side and if you have a Facebook page, this is the field you enter that into. To get your Facebook address, just go to your Facebook page, click on the address bar to highlight it, and right click your mouse and select "copy" to copy it. Then right click in this field and select "paste" to paste it into this field. Of course, you can also type it in if you want to.

Feel free to contact us if you have questions or you want help filling in the information.
